

# Steal My Heart Away

Van Morrison

I can hear the sound of violins  
I can hear the piper play  
And every time the song begins  
You just steal my heart away

The journey's longer than  
I thought my love  
There's lots of things  
Get in the way  
But every time I think of you  
You just steal my heart away

Just like a morning  
In May like this  
See the heather on the hill  
There's a place way up  
The mountainside  
Where the world  
Keeps standing still

Just like the sunshine after rain  
I'll come  
To be with you will save the day  
'Cause I know  
When I'm with you again  
You just steal my heart away

Just like a morning  
In May like this  
We see the heather on the hill  
There's a place up on  
The mountainside  
Where the world is  
Standing still

Just like the sunshine after rain I'll come  
To be with you will save the day 'cause I know  
When I'm with you again  
You just steal my heart away

'Cause I know  
When I m with you again  
You just steal my heart away

'Cause I know  
When I'm with you again  
You just steal my heart away

'Cause I know  
When I'm with you again  
You just steal my heart away
