

# Take It Where You Find It

Van Morrison

Men saw the stars at the edge of the sea  
They thought great thoughts about liberty  
Poets wrote down words that did fit  
Writers wrote books  
Thinkers thought about it

Take it where you find it  
Can't leave it alone  
You will find a purpose  
To carry it on  
Mainly when you find it  
Your heart will be strong  
About it

Many's the road I have walked upon  
Many's the hour between dusk and dawn  
Many's the time  
Many's the mile  
I see it all now  
Through the eyes of a child

Take it where you find it  
Can't leave it alone  
You will find a purpose  
To carry it on  
Mainly when you find it  
Your heart will be strong  
About it

Chorus:  
Lost dreams and found dreams  
In America  
In America  
In America  
Lost dreams and found dreams  
In America  
In America  
In America

And close your eyes  
Leave it all for a while  
Leave the world  
And your worries behind  
You will build on whatever is real  
And wake up each day  
To a new waking dream

Take it where you find it  
Can't leave it alone  
You will find a purpose  
To carry it on  
Mainly when you find it  
Your heart will be strong  
About it

Repeat Chorus

Change, change come over  
Change come over  
Talkin' about a change  
Change, change  
Change come over, now  
Change, change, change come over

I'm gonna walk down the street  
Until I see  
My shining light  
I'm gonna walk down the street  
Until I see  
My shining light  
I'm gonna walk down the street  
Until I see  
My shining light  
I see my light  
See my light  
See my shining light  
I see my light  
See my light  
See my shining light
