## The Lonesome Road

## **Van Morrison**

Baby, look down, look down that lonesome road And before you travel, travel on Look up, look up and see your maker Before Gabriel blows his horn

Life gets weary when you're carrying such a heavy load Traveling down that lonesome road Baby, look down, look down, oh, that lonesome road Before you travel on, travel on

Life gets weary when you're carrying such a load Traveling down that lonesome road True love, true love what have I done? For you to treat me, you to treat me so

Way you make me walk and you make me talk Like I never, never, never done before

True love, true love what have I done? For you to treat me, you to treat me so You make me walk and you make me talk Like I never, never, never done before

Never done before Like I never, never done before Like I never done before
