Think Twice Before You Go

Van Morrison

Think twice before you go Baby, thisll be the end Think twice before you go Baby, thisll be the end Can you leave me one time Baby, you will leave again

Stay and suffer with me, baby Then Ill know you paid your due Stay and suffer with me, baby Then Ill know you paid your due If youre not there when I need you Then you know you stand accused

Think twice before you go Baby, thisll be the end Think twice before you go Baby, thisll be the end If ya leave me one time Baby, you will leave again

Ooh!

Youre breakin my heart When ya know ya done me wrong Youre breakin my heart You know you done me wrong Baby, come back home Come back where you belong

Think twice before you go Baby, thisll be the end Think twice before you go Baby, thisll be the end If ya leave me one time Baby, you will leave again

(one more time)

Think twice before you go Baby, thisll be the end Think twice before you go Baby, thisll be the end If ya leave me one time Baby, you will leave again
