

# This Has Got to Stop

Van Morrison

I'm giving you my heart and my soul  
I'm giving you more than you'll ever know  
I'm giving you just about everything I can  
Can't you see that I'm just only one man

I took you out to the picture show  
Then I took you walkin' outdoors  
I walked you up and down the block  
And I warned you baby this has got to stop

This has got to stop, you're way over the top  
Pack my things and walk, we can't even talk  
This has got to stop, I just had enough  
I'm gonna call your bluff, walk you one more lap

And I watched you watching me as I watched you walk away from me  
And I went off to that far country  
I took a plane out to that Newfoundland  
And you said to me that you didn't understand

This has got to stop, you're way over the top  
I'm gonna pack my things and walk, we don't even talk  
This has got to stop, baby I just had enough  
I'm gonna call your bluff, walk me one more lap

Well I came back home and I burnt our house down  
I watched it crumble to the ground  
Oh it caved in like a piece of balsa wood  
I turned to you and said baby, this is just no good

And I worked and I tried to build it all back up again  
Today you told me that you had really changed  
Then you knocked down all my castles in the sand  
Then I said baby, I know now just where we stand

This has got to stop, you're way over the top  
Pack my bags and walk, we don't even talk  
This has got to stop, I've just had enough  
I'm gonna call your bluff, this has got to stop

This has got to stop  
Stop, stop I've had enough  
I'm gonna call your bluff  
Stop, stop, stop
