

# Till We Get the Healing Done

Van Morrison

Down those old ancient streets  
Down those old ancient roads  
Baby there together we must go  
Till we get the healing done  
Till we get the healing done

Till you're satisfied with your life  
Till you're satisfied with your life  
Till you're satisfied with your life  
And it's running right, and it's running right

Till you deal with the poison inside  
Sometimes you've got to sit down and cry  
When you deal with the poison inside  
Till we get the healing done  
Till we get the healing done

Till you feel the tingle up your spine  
Till you're satisfied and you're mine  
Till you feel a tingle up your spine  
Till we get the healing done  
Till we get the healing done

Till you live in the glory of the One  
Till you live in the land of the sun  
Till you feel like your life has just begun  
Till we get the healing done  
Till we get the healing done

Till we dwell in the house of the Lord  
Till you don't have to worry no more  
Till you open a brand new world  
Till we get the healing done  
Till we get the healing done

Till it makes you feel alright  
Till you're satisfied with your life  
Till you know you live in the Light  
Till we get the healing done  
Oh till we get the healing done

Till you look at the mountains every day  
Till you wash all your troubles away  
And you live right here in the day  
Till we get the healing done  
Oh till we get the healing done

Oh till it's Truth and it's beauty and it's grace  
Till you've finally found your true place  
Till you know your original face  
Till we get the healing done  
Oh child, till we get the healing done

Oh when everything's going right  
Till you're satisfied with your life  
Till you're living in the Light  
Till we get the healing done

Oh till we get the healing done

Oh when you feel it, when you feel it in your soul  
Baby, and you really know  
That you reap just what you sow  
When we get the healing done  
Oh till we get the healing done  
Till you know that it's working every time  
Till you work it out in your mind  
And you know it straight down the line  
Till you get the healing done  
Oh make no worry till we get the healing done

Oh we gonna go back, back to our favorite place  
Oh look at it again  
See it all through different eyes  
When we get the healing done  
Oh when we get the healing done

Oh we're living for the grace of the Lord  
Baby feel so good about it all  
Oh give thanks every day  
Till we get the healing done  
Oh till we get the healing done  
Till we get the healing done

Oh baby, baby till we get the healing done  
Till we get the healing done  
Baby you got to stay  
Till we get the healing done

If it takes to the break of day  
Till we get the healing done  
Till we get the healing done  
Till we get the healing done  
Till we get the healing done  
You got to stay all night long  
Till we get the healing done
