

# When That Evening Sun Goes Down

Van Morrison

I want you, be around  
When that evening sun goes down  
I want you, be around  
Keep my both feet on the ground  
When that evening sun goes down

I want you, understand  
Little girl, take me by my hand  
I want you, understand  
I want to be your loving man  
When that evening sun goes down

If it's nice, we'll go for a walk,  
A stroll in the clear moonlight  
Singing a song, won't take long  
Everything gonna be alright

And I want to hold you oh so near  
Keep you, darling from all fear  
I want to hold you oh so near  
Nibble on your little ear  
When that evening sun goes down

If it's nice, go for a walk,  
Stroll in the clear moonlight  
Sing you a song, won't take long  
Everything gonna be alright

And I want to hold you oh so near  
Keep you, darling from all fear  
I want to hold you oh so near  
Nibble on your little ear  
When that evening sun goes down

When that evening sun goes down  
When that evening sun goes down  
When that evening sun goes down  
When that evening sun goes down  
When that evening sun goes down  
When that evening sun goes down
