

Changes

Van She

No, I can't find your jeans
A prince of memory
I can't show you tears
But I'm already gone

Razors bring you pain
Apple juice won't stain
The olives taste the same
But I don't know you

And it's alright
Cause it's over
I don't care about you
With your books and
Your stories
Everything you do

No, in those dreams of you
Hips and browned eye view
Starless was our song
I'm already gone

Razors give me pain
Orange juice won't stain
The olives taste the same
But I don't know you

And it's alright
Cause it's over
I don't care about you
With your books and
Your stories
Everything you do

Everything you do
Everything you do
You do
