

# Black Bottom Road

Van Zant

In the part of town  
You don't wanna be found  
Everybody knows better when the sun goes down  
As the fog rolls in  
You never know where you've been  
Cross that line to another world  
Black Bottom Road  
There's only one way in and one way out you know  
Black Bottom Road  
Well this black is cold and black is hell  
You know you're there when you smell that smell  
It goes on and on and on  
Black Bottom Road  
Ya!  
Once you step outside  
You hardly know you're alive  
Welcome to the devil's dance, Lord you've made his day  
Along side of the road  
Oh it's a river that flows  
It's full of rocks and bones and blood  
And now your fears  
And it goes nowhere, there ain't no size  
Never see anybody pass by  
Better hold on with all your life  
All your life  
Black Bottom Road  
There's only one way in and one way out you know  
Black Bottom Road  
Well this black is cold and black is hell  
You know you're there when you smell that smell  
It goes on and on and on  
Black Bottom Road  
It Goes On and On!  
And it goes nowhere, there ain't no size  
Never see anybody pass by  
Better hold on with all your life  
All your life  
Black Bottom Road  
There's only one way in and one way out you know  
Black Bottom Road  
Well this black is cold and dark is hell  
You know you're there when you smell that smell  
It goes on and on and on  
Black Bottom Road  
Black Bottom Road  
Black Bottom Road  
It goes on and on  
Black Bottom Road  
Goes on and on!  
Black Bottom Road  
Well this black is cold and dark is hell  
You know you're there when you smell that smell  
Black Bottom Road  
Oh, Goes on and on!  
Black Bottom Road  
'Cause time is hell  
Black Bottom Road

Black Bottom Road  
Black Bottom Road
