

# That Was Yesterday

Van Zant

Ooh!  
You said it, but didn't really mean it  
One too many times  
If I'd been looking  
I would have seen it comin'  
Could have saved myself some time  
You say this time it's different  
But that don't make it right  
You're just giving me another reason  
To look you in the eye and say  
That was yesterday  
Oh it took a while, but I'm finding my way  
That was yesterday  
Oh baby you can say you love me all you can  
I'm afraid you got the wrong man  
Oh you got the wrong man  
You had it, and I need it  
More than just your time  
You played it, and I bought it  
But you would've hurt in time  
Slowly but surely  
You drove me out of my mind  
But it's my turn baby  
So don't be suprised  
When you hear me sayin'  
That was yesterday  
Oh it took a while, but I'm finding my way  
That was yesterday  
Oh baby you can say you love me all you can  
I'm afraid you got the wrong man  
Oh you got the wrong man  
Oh the wrong man  
That was yesterday  
That was yesterday  
Oh it took a while, but I'm finding my way (hear me saying)  
That was yesterday  
Oh baby you can say you love me all you can  
I'm afraid you got the wrong man  
Oh you got the wrong man  
That was yesterday  
That was yesterday  
That was yesterday  
(That was yesterday)  
Oh you got the wrong man  
(That was yesterday)  
You had it...and I need it...more than just your time  
(That was yesterday)  
That was yesterday
