

## Wildside

Van Zant

I'm the kind of man that loves all the girls  
From debutantes to honky-tonk queens  
I've tasted every brand all around the world  
But all I see are peaches in my dreams  
I'm talkin' 'bout, I'm talkin' 'bout them southern women  
It's a well known fact across the Dixie line  
And if a man don't agree I can tell you he's blind  
They can drink with the best and the hell with the rest  
And if she takes you home you ain't gettin' no rest  
I'm talkin' 'bout, I'm talkin' 'bout them southern women  
I'm talkin' 'bout they'll love you so slow them southern women  
Them southern girls  
They look like angels on Saturday night oh-  
Lord they got a wild side  
Take you places that you've never been make a man come back aga  
in  
Talk about mama's southern belle little girl learned her lesson  
well  
Ain't no others can cast a spell like the sweet southern women  
I'm talkin' 'bout, I'm talkin' 'bout them southern women  
I'm talkin' 'bout they'll love you so slow them southern women  
Them southern girls  
They look like angels on Saturday night oh-  
Lord they got a wild side  
Take you places that you've never been make a man come back aga  
in  
Talk about mama's southern belle little girl learned her lesson  
well  
Ain't no others can cast a spell like the sweet southern women  
They can make a man feel so proud they can capture him with a s  
outhern style  
Little girl learned her lesson well ain't no others can cast a  
spell  
Like the sweet southern women them southern girls
