

## I Don't Miss You

Vanden Plas

I can't cry away all the tears  
I can't lie away all the fears  
I have inside  
All my sails are torn by the wind

The scars that you incise  
Will never go away

I don't miss you  
I don't even love you  
I want you to die in my arms

I'm a storm the air that you breath  
Learn to fly away  
On the wings you wear inside  
You see me dying down in the fields  
The way over the bridge

A fire guides the way  
And winds that let you soar  
Will blow away my flame

I don't miss you  
I don't even love you  
I want you to die in my arms

I don't miss you  
I don't even love you  
I wish you would die in my arms

I don't love you  
I don't hear you  
I won't cry for you

I don't miss you
