

Welcome To The Club

Vandenberg

It's alright when you've said goodbye, it's alright when it's all wrong

It's just fine, there's no need to cry, now's your chance to sing your song

You've got your break now, you can do what you want

Don't hesitate now, you're on your own now, no obligations

Chorus:

Welcome to the club - you're so cool when you're out of love

Welcome to the club - you're very cool when you're out of love

It's so common, must be in the air, no one goes steady anymore

It seems right now, everyone breaks out, it's more fun to chase
alone

Alright with me, hunting season's here

There's so much prey there, my gun is loaded and now I'm ready

Yeah yeah

Welcome to the club - you're so cool when you're out of love (repeats 3x)

Welcome to the club!
