

## 19 Turning Point

Vanessa Amorosi

My beginnings  
Were a lesson learnt  
Adding up my years, I was just 19.

At this tender age  
My brain clicked on  
Who are you to point  
And who are you to judge me

I wasn't perfect but I knew wrong from right  
Maybe I partied just a little too long sometimes  
But I pulled together and I did alright

I been ripped out  
And washed up on a highway  
I learnt from went down  
Who's there from the right things  
Now I'm, now I'm strong  
With a nineteen turning point  
Nineteen turning point  
A turnin point at nineteen  
A nineteen turning point

MK firing  
Many rounds  
That's what I was like, if you knew me  
But I did ok  
Maybe bruised and scared  
But I somehow knew it was just the beginning

If I turned the tables you would know what its like  
No sheltered baby I was a little out there sometimes  
But I pulled together and I did alright

I been ripped out  
And washed up on a highway  
I learnt from went down  
Who's there from the right things  
Now I'm, now I'm strong  
With a nineteen turning point  
Nineteen turning point  
A turnin point at nineteen  
A nineteen turning point

Nineteen revolution in the air  
As long as I can live with what I did  
Some people have a turning turning at 17, 20 to 25  
As long as it keeps their dreams alive

I been ripped out  
And washed up on a highway  
I learnt from went down  
Who's there from the right things  
Now I'm, now I'm strong  
With a nineteen turning point  
Nineteen turning point  
A turnin point at nineteen

A nineteen turning point
