

A Little Love

Vanessa Amorosi

Funny,
How filling up a cup is easy.
But who fills it when it goes empty?
Is it you?

Green lights, signalling it's time to go on.
When it's red that's when I know I want.
But can't move.

Just a little bit of love
(love me like a cigarette)
Just a little but of love
(squeeze me til I lose my breath)
Just a little bit of love.. Goes a long way
(throw me off a nice big cliff, going down in and out that is life)

Good jobs,
Are the ones I try to get.
What I end up with won't pay shit.
Like This

Just a little bit of love

Just a little but of love
(squeeze me til I lose my breath)
Just a little bit of love.. Goes a long way
(throw me off a nice big cliff, going down in and out that is life)

Just a little bit of love
(love me like a cigarette)
Just a little but of love

Just a little bit of love.. Goes a long way

Sunshine, daytime goes fast.
Sometimes it leaves you with nothin' left.
So what are you gonna stand there and cry?
Or maybe you should get into the real rhythm of life.

Just a little bit of love
(love me like a cigarette)
Just a little but of love
(squeeze me til I lose my breath)
Just a little bit of love.. Goes a long way
(throw me off a nice big cliff, going down in and out that is life)
