

I Want Your Fire

Vanessa Amorosi

I want your fire
Give me your fire

So we're good together
We should really settle down
Maybe get married - even buy a house

Start popping out the babies
You'll be a great Dad

Just a few changes
It's called settling down

We're always in a fight
From thing little things you say
But I won't change a thing
Cos I like it this way

Give me fire
I want your fire

I want your fire
Give me your fire

Is there water in the room
There's a fire in the house

I want your fire
I want your fire

You said
Yes baby I love you
But I'm not ready to commit
I'm not ready for the mortgage
I'm not ready for the kids

Maybe we should have a holiday
Party in some different towns
Cos I'm not ready baby
For settling down

Always in a fight
From thing little things you say
But I won't change I thing
I like it this way

Give me fire
I want your fire

I want your fire
Give me your fire

Is there water in the room
There's a fire in the house

I want your fire
I want your fire

You said
Fire
I want you fire
Give me your fire

Is there water in the room
There's a fire in the house

I want your fire
I want your fire

You said.. two three..

You set me on fire baby
I can get a bucket water baby
You been making me crazy baby
You been actin like a spoiled baby

You set me on fire baby
Burn baby burn burn
You been makin me dizzy baby
Stop spinnin'
Stop trippin'

I love you baby

Always in a fight
From thing little things you say
But I won't change I thing
I like it this way

Give me fire
I want your fire

I want your fire
Give me your fire

Is there water in the room
There's a fire in the house

I want your fire
I want your fire

You said
Two.. Three..
