

## Lifted Up

Vanessa Amorosi

I'm only lifted up lifted up  
Lifted up to you

I start my morning  
I turn the lights on and slowly wake up  
And I end my day,  
I drink from the same cup  
I get around doin'everything twice  
But it always feels like, I'm still on the first line  
But no matter how the week is  
If you're around I'm fine  
And the more we are together  
The more that I find

That I am only lifted up lifted up  
Lifted up to you  
Said I am only lifted up lifted up  
Lifted up by you  
Lift me with a little love, lift me  
With a little love

Now I have to tell you  
About the love that you givin'me  
It makes me happy  
You make me stronger I believe  
And when the day is nearly done  
You don't have to turn around  
Or look for another  
Cos you will only find

I'm only lifted up lifted up  
Lifted up by you  
Lift me with a little bit of love  
I'm only lifted up lifted up  
Lifted up by you  
No matter how the week is  
If you're around I'm fine  
And the more we are together  
The more that I find
