

# Summer Nights

Vanessa Amorosi

Can you remember when you were young  
the love you had for everyone  
the weekends when you played outside  
nothing was too hard to try  
now that I've grown up

I love the smell of summer nights  
it reminds me of when I was nine  
having a crush on a kid at school  
when lolly cigarettes were cool  
not so much has really changed  
I still feel like a kid most days  
too hot to sleep well it's alright  
I love the thought of summer nights

Asking can my friend stay over  
crying on my mumma's shoulder  
waiting for the ice cream truck  
telling my sister to hurry up  
now that I've grown up

I love the smell of summer nights  
it reminds me of when I was nine  
having a crush on a kid at school  
when lolly cigarettes were cool  
not so much has really changed  
I still feel like a kid most days  
too hot to sleep well it's alright  
I love the thought of summer nights

I love the summer when the sun rises  
don't care how old I become  
I still get so excited

I love the smell of summer nights  
it reminds me of when I was nine  
having a crush on a kid at school  
when lolly cigarettes were cool  
not so much has really changed  
I still feel like a kid most days  
too hot to sleep well it's alright  
I love the thought of summer nights

I love the smell of summer nights  
it reminds me of when I was nine  
having a crush on a kid at school  
when lolly cigarettes were cool  
not so much has really changed  
I still feel like a kid most days  
too hot to sleep well it's alright  
I love the thought of summer nights
