My Best

Vanessa Carlton

Mmmmmmmm

We scream and shout and try to make it last Though it didn't work out, I don't love you any less My lover or friend, I wont ever tell Our secrets safe An unspoken citadel

And in these broken times, well, It's so easy to forget So I sing to remind Upon my shoulder you can rest Cause I'll always give you my best

A sidewalk's path leads me to you Though we don't look back, We hold on to a truth

And in these broken times I promise I will not forget Though you're not mine Upon your shoulder I can rest Cause you always give me your best

Like a promise kept It's like you never left It's like you never left

And though it's been so long, I can't ever seem to forget All it takes is a song And I could swear I hear your steps Down the hall echoes a past Thatleaves an ache, It's never left Cause I gave you my best

It's like you never left It's like you never left We scream and shout and try to make it last
