## San Francisco

Vanessa Carlton

I, I know what you did Like a boy of summer gives his first kiss Love, is dancing on my finger He got to the heart of the matter and lingered Now I'm walking with the living I always liked Steinbeck and those old men whistling

We're back, we're back in San Francisco We're back and you tell me I'm home

Talking in the Mission Over coffee this is my utopia Man, I'll be your lady As the ocean rises, the sun is fading

We're back, we're back in San Francisco We're back, we're back in San Francisco We're back, we're back in San Francisco

And now I feel the ever after Over red wine on the eve of summer The buzz, the buzz of the city As we settle in it's majesty I, I know what you did Like a boy of summer gives his first kiss

We're back, we're back in San Francisco We're back and you tell me I'm home

You tell me I am home You tell me I am home You tell me I am home Back in San Francisco

And I know what you did in San Francisco I know what you did in San Francisco San Francisco
