

Right Here Right Now

Vanessa Hudgens

Can you imagine, what would happen
If we could have any dream
I'd wish this moment, was ours to own it
And that it would never leave
Then I would thank that star,
That made our wish come true Oh yeah
Cause he knows that where you are, is where I should be too

Right Here, Right Now
I'm looking at you, and my heart loves the view
Cause you mean everything (oooo)
Right Here, I promise you somehow
That tomorrow can wait, (ooo yea)
For some other day to be (to be)
But right now there's you and me

It feels like forever, what could be better
We've already proved it once,
2,123 hours, were dancing the universe
Cuz finally, everything (everything)
In our whole world changed (it starts changing)
And you know that where we are, (where we are)
Will never be the same
oh no, oh no

Right Here, Right Now (right now)
I'm looking at you, and my heart loves the view
Cause you mean everything (everything)
Right Here, I promise you somehow (somehow we're gonna)
That tomorrow can wait, for some other day to be (to be)
But right now there's you and me

Oh we know its coming (coming)
And its coming fast
It's always you and me, ohh yeah
So lets make this second last
Make it last

Right here,
Ooohh Right now.
Yeah im looking at you,
and my heart loves the view
Cause you mean everything

Right Here, I promise you somehow
That tomorrow can wait, for some other day to be (to be)
But right now there's you and me
You and me
you and me
Ohh You and me
But right now there's you and me
