

# Bliss

Vanessa Paradis

Dear smoky room  
Stardust in the eyes  
Anything will rise  
Our bellies bloomed  
Sunset red fly toes  
Haunted mind  
Where I go there it goes  
Your soul within mine  
I'm a book in my dreams  
See what I love you means

Far for the ground  
Below the sky  
No way around  
Is where we hide  
Between the sound  
Before the light  
My love and I live in never to be found

The music plays  
Greatest overtimes  
Candles burned down  
For paper planes  
Nothing is everything  
Details too  
You're the thrills for my wings  
I'm flying for you  
I'm a book in my dreams  
See how I love you feels

Far for the ground  
Below the sky  
No way around  
Is where we hide  
Between the sound  
Before the light  
My love and I live in never to be found

J'ai fini d'me chercher  
Falling into your nest  
Depuis qu'j't' ai trouvé  
I call it bliss  
La meilleure personne en moi  
For the best and less and the rest  
Au fond see'est toujours toi  
Nothing is quite like it use to be  
Mon âme, mon amour, ma foi  
Deep down inside of me  
Les anges se passeront de toi  
I'm done searching for myself  
Reste encore au creux de moi  
Since you're flowing in my veins  
Cinq minutes jusqu'à l'infini

Far for the ground  
Below the sky  
No way around

Is where we hide  
Between the sound  
Before the light  
My love and I live in never to be found
