

Sunday Mondays

Vanessa Paradis

The sun is out
The clouds are slowly going
And now my heart is growing fast
So let's get up
Put on your hat and clothing
Let's take a trip and lose our minds

Let's go walking through the park today
I love sunday mondays any day
When the skies are blue and it's not grey
I'll take sunday mondays any every day

Sometimes it's fun
To just escape and run
And leave this troubled world behind
So let's get lost
And get our juices flowing
And let's go see what we can find

Let's go walking through the park today
I love sunday mondays any day
When the skies are blue and it's not grey
I'll take sunday mondays any every day

Let's go walking through the park today
I love sunday mondays any day
When the skies are blue and it's not grey
I'll take sunday mondays any every day
