

# The Future Song

Vanessa Paradis

Life brings on unexpected changes  
But we must carry on despite it  
Are we gonna try  
Are we gonna make it  
Why is love so very hard  
Why is peace so very far  
I can't make it

The future of our space and time  
Is not gonna wither and die  
The future of our space and time  
Is not gonna say goodbye

We can't control all our situations  
And we can't console underprivileged  
Nations  
So why don't we try  
To make more smiling faces  
We're so full of disregard  
We feel pain within our hearts  
I can't take it

The future of our space and time  
Is not gonna wither and die  
The future of our space and time  
Is not gonna say goodbye

So I'm calling out  
Out to all the races  
We can't gain control  
Without communication  
And we need to learn for future generations  
There is future in our stars  
There is beauty that is ours  
We're gonna make it

The future of our space and time  
Is not gonna wither and die  
The future of our space and time  
Is not gonna say goodbye
