

Surrender

Vanessa Williams

I've never felt this way before
There's nothing else I could want more
Than something real, only passion can reveal

With body and soul, I'm used to controlling
Every, everything
Now, I can let go, let down my guard
And we'll see how far this love can go

I surrender my heart, I'm giving up
And I don't wanna fight, I just wanna love
I surrender it all, I'm giving in
To the power of love - surrender

This feels too good, can't bring me down
Feels like I could never touch the ground
And how I've waited, truer love anticipated

With body and mind, I know that there's time
For every, everything
Now I can let go, let down my guard
And how I've waited, truer love anticipated

I surrender my heart, I'm giving up
And I don't wanna fight, I just wanna love
I surrender it all, I'm giving in
To the power of love - surrender

With body and soul, I'm used to controlling
Every, everything
Now, I can let go, let down my guard
And we'll see how far this love can go

I surrender my heart, I'm giving up
And I don't wanna fight, I just wanna love
I surrender it all, I'm giving in
To the power of love - surrender
