

Come to Me

Vangelis

Come to me
While I'm sleeping
So their wagging tongues
Might not find you, my love

All the while
They lie down
[I'll let a so sweet]
For I'll die for my love

So stop this night so strong
That I will remember
And have it ever after

Come to me
While I'm sleeping
So their wagging tongues
Might not find you, my love

Come to me
End my dreaming
So their wagging tongues
Might not find you, my love

'Round the corner
Back of hands
They'll still be talking
Whether or not we'd ever
Whether we'd ever, my love
