

## Deborah

Vangelis

I read your letter  
I got it just the other day  
You seem so happy  
So funny how time melts away  
It's such a pleasure  
To see you growing  
And how you're sending your love  
Thru' the air today  
I think of Heaven  
Each time I see you walking there  
And as you're walking I think of children  
Everywhere  
It's in your star sign  
You growing stronger  
I can't believe you  
It's so good to care  
Thru' enchantment - into Sunlight  
Angels touched your eyes  
Your Highness - Electric - So Surprise  
Is this your first life  
It seems as tho' you have lived before  
You help me hold on  
You have a heart like an open door  
You sing so sweetly  
My Love adores you  
She does, she's thinking of you  
Right now, I know  
The summer's coming  
I'll keep in touch so you're not alone  
Then like a swallow, you'll fly away  
Like birds have flown  
So let me tell you  
How much I love you  
I'd make the songbirds sing  
For you again  
Well now it's goodnight  
Sweet angel, read this letter well
