

Hate

Vanilla Ice

All I see is hate can't understand why
And now it's like the whole wide world got me hypnotized
On a hex for generation X what's next
the mutated breeding of Tyranosaurus Rex
Through DNA testing I really condone
The right to clone, why don't you just leave it alone?
Smoke some homegrown get up in this zone
Amplify your mind while you're puffin on a bone
One hit then I see right through the bullshit
Media blitz, got people loading their clips
Spreading the hate now your sealing your fate
Take a look up in the mirror and face what you create

All I see is hate
Fuck you what you want to do huh?
All I see is hate
Fuck me, well fuck you too
All I see is hate
Psycho-fanatic your mind is an addict
All is see is hate
Don't give a fuck why cause I've had it

Black Sunday on the day I hate breed
Jesus paid and now we're all gonna bleed
Dirty deeds and their done dirt cheap
Now they creep through the streets
From Miami to LA, New York and back
While you weep in your sleep
It's like a pimp slap from a burn on crack
And then you got jacked like Lindros on his back
In fact you lack your intelligence is wack
Stop teh hate, it ain't to late
The devil's take your soul unless you step up to the plate
Spreading the hate, now you're sealing your fate
Take a look up in the mirror and face what you create

All I see is hate
Fuck you what you want to do huh?
All I see is hate
Fuck me, well fuck you too
All I see is hate
All is see is hate
Psycho-fanatic your mind is an addict
Don't give a fuck why cause I've had it
My path lies beneath your eyes
My path lies beneath your eyes
My path lies beneath your eyes
My path lies beneath your eyes

All I see is hate
Fuck you what you want to do huh?
All I see is hate
Fuck me, well fuck you too
All I see is hate
Psycho-fanatic your mind is an addict
All is see is hate
All I see is hate

Don't give a fuck why cause I've had it
Fuck you what you want to do huh?
All I see is hate
Fuck me, well fuck you too
All I see is hate
Psycho-fanatic your mind is an addict
All is see is hate
Don't give a fuck why cause I've had it
