

# I Know

Vanilla Ice

I know somethings shady when I'm feeling it  
You play the game like cards when your dealing it  
I see through the eyes of a marked man  
But in the streets you gotta have a game plan  
I'm paranoid I see them coming after me  
24/7 on me constantly  
I see the red beam, I walk the tight rope  
But I know I'm the target in the scope  
YEA!

I try to weed out the real from the fake ones  
Two faced ones wont you keep it real son

I can see it from a mile away

Cause I'm holding it down with my feet on the ground  
And they...

They're tryin to break me, they're tryin to rape me  
They're tryin to bring me down  
They're tryin to break me, they're tryin to rape me  
They're tryin to bring me down

I know there's something going on  
And it seems so cold  
I know there's something going on  
And it wont be long

I know there's something going on  
How could you be so cold  
I know theres something going wrong

Yea!  
Evil lurks when you around  
And then you know how it's goin down  
I look deep and figure how to break free  
In my pain escape from reality

I see you scoping on my life and now he tells me  
You look suspicious and you plan is tryin to gank me  
The mainsuspect but your the reject  
You'll be the one with the gun, no respect for me  
I roll deep like a bond, I got a blue print

Creep in your area lowright through the residence  
Like a sniper, control the damager

Flippin the script cause Im two steps ahead of ya  
They're tryin to break me, they're tryin to rape me

They're tryin to bring me down  
I know there's something going on  
And it seems so cold  
I know there's something going on

And it wont be long  
I know there's something going on

How could you be so cold  
I know theres something going wrong  
Yea!

I know theres something on  
I know theres something on  
Cant get this out of my head  
I know there's something going on

And it seems so cold  
I know there's something going on  
And it wont be long  
I know there's somthing going on  
How could you be so cold  
I know theres something going wrong  
Yea!
