

# Insane In Vain

Vanilla Ninja

You got me blinded by your vicious lights  
You took my past  
And threw it against your wall of fate

You got me, got me, got me good  
You thought you had me on your hook  
Wish I could erase the time that you took  
That you took from me

Insane in vain  
Who do you think you are  
I'm still standing  
I'm still breathing  
Don't hang your shit on me  
Insane in vain  
This time you've gone too far  
Who do you think you are

You pinned me down  
You had it all worked out a plastic cage  
You thought that I would move right in

You got me, got me, got me good  
You thought you had me on your hook  
Wish I could erase the time that you took  
That you took from me

Insane in vain  
Who do you think you are  
I'm still standing  
I'm still breathing  
Don't hang your shit on me  
Insane in vain  
This time you've gone too far  
Who do you think you are

And maybe I should have known before  
Too many signs that I ignored  
That you'd be a dead end street to me  
There was nothing that you could give  
Now rage is all that you left me with

Insane in vain  
Who do you think you are  
I'm still standing  
I'm still breathing In  
Don't hang your shit on me  
Insane in vain  
This time you've gone too far  
Who do you think you are
