

Never Gotta Know

Vanilla Ninja

You can't see the shadows in my daydreams
You won't feel the torture in my mind
Baby you don't realize
I'm lost in scary thoughts
At night - when I feel blind

'Cause you never ever gotta know my love
All I hide inside
What is creeping through my soul?
What is tryin' to take control?
Babe it's true - you
Never ever gotta go that far
You can find a key to the secrets of my heart
All you gotta know is I
Got to get you

See me as an angel you could fall for
See me as the virgin you could try
Baby just imagine
I'm a wild thing you could tame
Feel fine - living with lies

'Cause you never ever gotta know my love
All I hide inside
What is creeping through my soul?
What is tryin' to take control?
Babe it's true - you
Never ever gotta go that far
You can find a key to the secrets of my heart
All you gotta know is I
Got to get you

Baby you may know I'll never cheat you
You know my love is true
I hope you won't find out
I hope you'll never know
What I - do know about you

'Cause never ever you gotta gotta know

Never ever gotta know my love
All I hide inside
What is creeping through my soul?
What is tryin' to take control?
Babe It's true - you
Never ever gotta go that far
You can find a key to the secrets of my heart
All you gotta know is I

Never gotta know
But all I hide inside
What is creeping through my soul?
Babe It's true - you
Never gotta know
What I hide inside
Secrets of my mind
Got to get you
