Never Gotta Know

Vanilla Ninja

You can't see the shadows in my daydreams You won't feel the torture in my mind Baby you don't realize I'm lost in scary thoughts At night - when I feel blind

'Cause you never ever gotta know my love All I hide inside What is creeping through my soul? What is tryin' to take control? Babe it's true - you Never ever gotta go that far You can find a key to the secrets of my heart All you gotta know is I Got to get you

See me as an angel you could fall for See me as the virgin you could try Baby just imagine I'm a wild thing you could tame Feel fine - living with lies

'Cause you never ever gotta know my love All I hide inside What is creeping through my soul? What is tryin' to take control? Babe it's true - you Never ever gotta go that far You can find a key to the secrets of my heart All you gotta know is I Got to get you

Baby you may know I'll never cheat you You know my love is true I hope you won't find out I hope you'll never know What I - do know about you

'Cause never ever you gotta gotta know

Never ever gotta know my love All I hide inside What is creeping through my soul? What is tryin' to take control? Babe It's true - you Never ever gotta go that far You can find a key to the secrets of my heart All you gotta know is I

Never gotta know But all I hide inside What is creeping through my soul? Babe It's true - you Never gotta know What I hide inside Secrets of my mind Gotta the way the form
