

## Hurt-A-Do

Vanilla Sky

She's from South America  
But she grew up in Rome  
She lost her dad when she was  
Too young to remember

How it would feel to lose someone she'd been loving  
But she is strong enough to move on with her life

She's the one who makes me smile  
When she says "Hi" I feel lost inside  
She's the one who makes me cry  
When she looks at me her love makes me fly

Then she moved to California  
And found another guy  
And when I heard the news  
I damn well nearly died

Is this how it feels to lose someone you've been loving  
Now that she is strong enough to move on with her life

She's the one who makes me smile  
When she says "Hi" I feel lost inside  
She's the one who makes me cry  
When she looks at me her love makes me fly

But I believe, but I believe  
But I believe that this love will come back again

She's the one who makes me smile  
When she says "Hi" I feel lost inside  
She's the one who makes me cry  
When she looks at me her love makes me fly.
