

# Invincible

Vanilla Sky

I let go  
Of all the distress and sickness  
It's been long, so long, too long  
Since I've looked through my own eyes

I've been trying to put my fears away  
But I realized  
There's nothing to fear more in this world  
Than the fear itself

Some days I'm like john doe  
Others I try to be invincible  
Well now I realize I am wrong  
Cause who's invincible after all?

I know, I know it's hard  
To listen to yourself with patience  
Resign to the fact that this  
Is what you are  
There was a man one day,  
He told me "don't get lost"  
"The frailty that you wear  
Is your most precious gift"

Some days I'm like john doe  
Others I try to be invincible  
Well now I realize I am wrong  
Cause who's invincible after all?

Feeling like a raindrop  
It's your turn to fall now  
Time to be the man  
who's keeping safe the frontline  
It is time to breathe It's time to feel  
It's time to bleed Time to be me

Feeling like a gun shot  
It's your turn to face off  
Time to be the man  
who's staring at the mirror  
It is time to lead It's time to feel  
It's time to heal Time to be me

How could I get?  
How could I get this far?  
How could I get... this far?

Some days I'm like John Doe  
Others I try to be invincible  
Well now I realize I am wrong  
Cause who's invincible after all?

Cause who's invincible after all?
