Nightmare

Vanilla Sky

What am I doing here?
what happened before?
Did I mess up?

Someone is calling me
Someone is whispering
Then you wake up

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone

I can't remember
How was holding your hands tight
Lost in bad light

Suddenly I'm hearing
Darkness around me
Should I wake up

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone

Afraid

I can remember
What happened before
Should I wake up and call you out loud on and on

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone
