

Slow Motion End

Vanilla Sky

You just close your eyes
Think of something that you
Never gonna share
You just stare at me
Words escape and leave you
Exposed on the inside

Give me the chance to let me in
Give me the time to take you out

I drive my way back home
Some reasons still unknown
Leave me anywhere but here
I'll say it loud and kill the noise
A fake slow motion end

The sun has just gone down
Your eyes get red and scream your
Love is gonna drown
When you try to sleep
Something tells you
That you're not the one you thought
That you've deserved something more

Give me the chance to let me in
Or give me the time to take you out

I drive my way back home
Some reasons still unknown
Leave me anywhere but here
I'll say it loud and kill the noise
A fake slow motion end

Take me far away from here
Treat me like a fuckin stranger
Victim of my deepest fears
I don't want

I drive my way back home
Some reasons still unknown
Leave me anywhere but here
I'll say it loud and kill the noise
A fake slow motion
best slow motion end
these fake slow motion ends
