

## Fimbul

Vanir

Fear! Hate!  
All shall fall! When Fimbul comes!  
Cold! Dark!  
Draw your swords! The end has come!

I see the death of a son  
I see a winter has come  
I see the sun devoured  
I see the end  
I see darkness surrounds the world  
I see mankind despair  
I see all bonds break  
I see the end

Fear! Hate!  
All shall fall! When Fimbul comes!  
Cold! Dark!  
Draw your swords! The end has come!

I see Fenris loose once more  
I see the worm on land  
I see the dead arise  
I see the end  
I see Surtur's march of destruction  
I see Naglfar setting sail  
I see Loki freed from his cave  
I see the end

Lightning strikes  
The world is on fire  
Revenge is now, the end is near  
The northern gods will meet their fate  
All bonds will break and brothers fight  
Mankind despairs as their gods fall

Jormundandr falls by Thor  
The brave son of Odin  
Walks nine steps, fall to the ground  
Poisoned wounds inflicted  
Tyr has lost his second arm  
and falls unto the hellhound Garm  
Heimdall takes on Loki  
as they fall to kill each other

Death and destruction fills the air  
This doom is upon us all  
Gods are now men alike

Jormundandr falls by Thor  
The brave son of Odin  
Walks nine steps, fall to the ground  
Poisoned wounds inflicted  
Tyr has lost his second arm  
and falls unto the hellhound Garm  
Heimdall takes on Loki  
as they fall to kill each other  
Fenris falls by Vidars hand

The silent son of Odin  
Rips apart his jaws  
and the chaoswolf lies bleeding  
Surtur sets the world on fire  
as everyone has died  
All is lost the world has ended  
Now a new world arises
