

# Angel Of Revenge

Varathron

I call (summon) you the unborn  
The lord of the night  
The ruler of the abyss.  
I call (summon) you through  
The silence of the viper  
The crying of the dead  
The pain of an injured cat!!!

Through the mystic passage  
In the land of dead  
Trip to another dimension  
(Where) meet the kings of elements  
(Where) they define the power of gods!!!  
(Where) they define the power of gods!!!

'He who once was an outcast  
More villainous than divas guts  
We appeal to you now,  
Send the angel of revenge!!!'

Behind the crystal dreams  
Where revenge causes victims  
Among innocent and guilty.  
Incorporeal figures  
Get out of the shadow  
Leading the dance of immortals  
Spirits, fires, lightnings!!!

I'm always seeking salvation  
Nevertheless I end up  
To everlasting isolation.  
Archetypes of ancient rituals  
And mystic, apocryphal knowledge,  
Belief of some kingdom  
Lost in centuries!!!

My eyes never saw  
The Promised Land  
My look wanders  
In dark places, unholy and abyssic!!!!

And when time stops  
And the sunbeams  
Pass the gates  
Of the dark kingdom,  
Of the folds of the mind  
Covered with webs,  
Then all the beauty,  
Will overflow,  
And the hope  
Of a suffering world!!!

My eyes never saw  
The Promised Land  
My look wanders  
In dark places, unholy and abyssic!!!!

Send the Angel of Revenge!!!!
