

## Street

Varius Manx

I have been there  
I still think of that accident  
That dusky street  
Looked at me and said be careful  
I won't forget  
This place which has no name  
Because it'd be  
Inside my mind forever

don't bve afraid  
Of that night  
I said to myself  
Those drifting clouds  
Overhead and everywhere

I met a child  
Who was tender and sincere  
He came to protect me  
From bad people  
My angel saved me so may times  
It may have been emotion  
Or just dream
