

Baby Steps

Varsity Fanclub

(Ohh) (Yeah yeah)

Admit it, we're finished
You don't want me no more (No)
Like a night mare, I lived it
It was too big to ignore (Ooh)
I hear the sirens but they pass me by
My hazard lights are flashing, somebody, anyone

HELP cause it's an emergency
Someone just wounded my heart
So HELP, it's like a bad surgery and now it's time to recharge
I'm starting over taking

One, two, baby steps
Three, four, baby steps
Five, six, baby steps
I'm starting over again

Abandoned, yeah I'm crying.
It's like you left me for dead (So dead, so dead)
I'm so broken, my love's frozen.
How do you live with regrets (Oh woah)
I see the memories flash before my eyes

HELP cause it's an emergency
Someone just wounded my heart
So HELP, it's like a bad surgery
And now it's time to recharge
I'm starting over taking,

One, two, baby steps
Three, four, baby steps
Five, six, baby steps

I'm starting over taking
One, two, baby steps
Three, four, baby steps
Five, six, baby steps
I'm starting over again

It's unexplainable
Kind of and unattainable
When the person you love aint enough.
I feel so pitiful
Look at my face you'll know the pain is in my eyes.
I need some, help.

HELP cause it's an emergency
Someone just wounded my heart
So HELP it's like a bad surgery and
now it's time to recharge

HELP cause it's an emergency
Someone just wounded my heart
So HELP it's like a bad surgery and
now it's time to recharge

I'm starting over taking
One, two, baby steps
Three, four, baby steps
Five, six, baby steps
I'm starting over again

I'm starting over taking
One, two, baby steps
Three, four, baby steps
Five, six, baby steps...
I'm starting over again.
