

# Let Her Go

Varsity Fanclub

(Drew)

You left a letter as a clue  
Said meet me at the spot where I first kissed you  
Holding my head in my hands  
You brush a tear off my face  
One on one you confess this is all you can take

(All)

I'm broken  
I'm tired

(Jayk)

There ain't nothing left to say

(All)

I'm crying

(Jayk)

Gave me no options  
You just walked away

(All)

Just let her go, just let her go  
It's too far in motion  
Just let her go, just let her go  
My heart can't gain control  
It's too late  
It's too far

(Drew)

You're leaving me behind

(All)

Just let her go  
Just let her go  
Just let her go  
Just let her go

(Thomas)

I should take it all back  
All the kisses I gave you, the tears that you left me with  
I don't know how to react  
On my own  
By myself  
How could you say goodbye?

(All)

I'm broken  
I'm tired

(Jayk)

There ain't nothing left to say

(All)

I'm crying

(Jayk)

You gave me no options  
You just walked away

(All)  
Just let her go  
Just let her go  
It's too far in motion  
Just let her go, just let her go  
My heart can't gain control  
It's too late  
It's too far

(Drew)  
You're leaving me behind

(All)  
Just let her go  
Just let her go  
Just let her go  
Just let her go

(All)  
It's cold  
It's cold  
It's cold  
It's cold

(David)  
It's cold in here without you

(All)  
It's cold  
It's cold

(David)  
I'm broken  
Thought it could be you  
When you think of it  
Every little piece of it  
It's keeping me from turning blue  
Had to turn away  
Didn't want to see you giving me away

(All)  
Just let her go  
Just let her go  
It's too far in motion  
Just let her go, just let her go  
My heart can't gain control  
It's too late  
It's too far

(Drew)  
You're leaving me behind

(All)  
Just let her go  
Just let her go  
Just let her go  
Just let her go

(All)  
Just let her go

Just let her go  
It's too far in motion  
Just let her go, just let her go  
My heart can't gain control  
It's too late  
It's too far

(Drew)

You're leaving me behind

(All)

Just let her go  
Just let her go  
Just let her go  
Just let her go
