

# Lost Then Found

Varsity Fanclub

[Verse 1]

You don't got to worry anymore  
Girl I got a feeling since you walked through that door  
That we don't need nobody but the two of us  
Just you and me against the world  
We don't got to look for it, it's so hard  
You and me were lost now  
Were in each others arms  
Finally we found something that we can hold  
And I can't let it go cause now  
Tell me how

[Chorus]

Lost in your love now it's pull me in  
Searching for some kind of sign to begin  
Caught in your world now I'm turned around  
Now that you got me lost then found

I'm looking and your looking [3x]  
Now that you got me lost then found  
I'm looking and your looking [3x]  
Now that you got me lost then found

[Verse 2]

I don't go to see it to believe  
All that I got to know is that you never would leave  
And you don't need a story of how my heart broke  
Cause I can tell you already know  
I don't know he treats you so bad  
I can almost hear all of the things that he said  
We don't need to spend even one minute longer  
Thinkin' bout the past  
We doesn't kill us makes us stronger now

[Chorus]

Lost in your love now it's pull me in  
Searching for some kind of sign to begin  
Caught in your world now I'm turned around  
Now that you got me lost then found

I'm looking and your looking [3x]  
Now that you got me lost then found  
I'm looking and your looking [3x]  
Now that you got me lost then found

[Bridge]

Whenever you're lost at sea  
Baby just call for me  
Cause you know I'll be calling for you  
Whenever you turn the page  
Dance on another stage  
Know in this life I'll be dancing with you  
Took me you got me  
And turned me around  
Now look what we found

[Chorus]

Lost in your love now it's pull me in  
Searching for some kind of sign to begin  
Caught in your world now I'm turned around  
Now that you got me lost then found

I'm looking and your looking [3x]  
Now that you got me lost then found  
I'm looking and your looking [3x]  
Now that you got me lost then found

[Chorus repeat]
