Ohhh
Woah woah, OH!
Never can, never can, never can fall (2x)

Hold up wait let me tell you something
You can't say that you don't wanna trust me
Don't be fake it's not to late to stay
Baby girl makin a big mistake
If you think that I'm not down with love then
I can show you, I can show you something
Cause I can try to be no other man
Cause ain't nobody else can do it like I can

I, I wanna be that guy
Who can save you from the past you left behind (left be, left behind)
And I, I want to show you why (show you why)
Cause I can trust ya (trust ya)
Love ya (love ya)
Cause baby just give me a chance

Every time you fall I won't let you down
I'll always keep you up you can't hit the ground
Jump jump, jump jump. Just jump jump, jump jump.
Come with me, and I will rescue (I will be right there)
If you need me to catch you (So girl you can't be scared to)
Jump jump, jump jump. Just jump jump, jump jump.
(I can be your para, I can be your parachute)

You see I f-f-f-f-feel it
Just in us cause baby I can't take it
Cause I don't wanna be just a friend
I'm gonna stick with you until the end
Feel the rush deep inside you turning
Out of touch you didn't read the warning
You may think that this is way too soon
Why can't you just accept that I love you?

Cause I, I wanna be that guy
Who can save you from the past you left behind (left be, left behind)
And I, I want to show you why (show you why)
I can trust ya (trust ya)
I can love ya (love ya)
Girl you gotta give me a chance yeah
