

Used To Be Lonely

Varsity Fanclub

Stranded, lying here
Hope had disappeared
I thought she'd never go
I wasn't part of her story she told me

Out of sight but still on my mind
I tried so hard to leave us behind
No matter what I did her memory lingered
I can feel her

The separation was so hard
Never thought I'd revive my heart

I used to be lonely 'til you saved me
I used to be lonely on my own
But now I know only you can show me
How to love I used to be lonely

Looking back it all makes sense
Unexpected twist of events
That led me straight to you
It was all meant to be, now I see

I needed her to get to you
You helped me make it through

I used to be lonely 'til you saved me
I used to be lonely on my own
But now I know only you can show me
How to love I used to be lonely

There was a time I thought I'd never love again
(I'd never love again)
But then you came along and showed me that I can

I used to be so lonely
I used to be on my own
But now only you showed me
How to love

I used to be lonely 'til you saved me
I used to be lonely on my own
But now I know only you can show me
How to love I used to be lonely
