

What I Really Want To Say

Varsity Fanclub

I say I don't care
But it makes me crazy when you're not there
I say I don't need you next to me

Say I don't need your touch
Say I don't need that much
Say this love don't mean a thing

What I really wanna say is you stay on my mind
And I die every time, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through what I want
What I really wanna say is I love you

I say I can live without you
But my mind's all tied up in thoughts about you
I say I won't let you get to me, yeah, yeah, yeah

But every time I'm with you
I get so caught up in you
Say this love ain't what I need

What I really wanna say is you stay on my mind
And I die every time, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through what I want
What I really wanna say is I love you

Why can't I say what I'm thinking
Why must I hide what I'm feeling
I'll tell you what I'm feeling now

What I really wanna say is you stay on my mind
And I die every time, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through
What I really wanna say
What I really wanna say
What I really wanna say now baby
What I really wanna do now baby, baby, baby, baby

What I really wanna show
What I really wanna say
What I really wanna do is just scream it out loud
Get the message through

What I really wanna say
What I really wanna say
