Find My Heart Again

Vashti Bunyan

Ever since you said goodbye I haven't known what to do 'Cause I haven't wanted to try To find myself someone new 'Cause I just want to be with you How can I give myself to somebody else yet So I'll just stay alone Until I get over you and the love we knew And I find my heart again

I know it wouldn't be fair To love someone new 'Cause I'd only want you to be there And make believe he was you 'Cause I just want to be with you How can I give myself to somebody else yet So I'll just stay alone Until I get over you and the love we knew And I find my heart again
