

## Be With Me

VAST

You were standing in a dark club down in New Orleans  
You were walking by a caf  on a Paris street

Be with me  
Protect me from the darkness of the sun  
Be with me  
Right now I just need to be with someone

Saw you lying on the soft bed I had made for you  
Words unspoken are the only words I know are true

Be with me  
You are the flower in a desert sea  
Be with me  
Until the time decides that it will leave  
It will leave

Be with me

Saw you laughing under the heavy London winter sky  
Saw you disappear into the coldness of the morning light

Be with me  
Protect me from the darkness of the sun  
Be with me  
Right now I just need to be with someone  
Oh with someone

Be with me  
Be with me
