It's Time

I made you come to me I'm still waiting for love to arrive The flowers are gone they've been for a while I'm still waiting for them to arrive I know you wanted this, I wanted it too We've tried everything and it still isn't working

It's time... It's time
It's time to say a strong goodbye

I made you come to me I'm still waiting for love to arrive The flowers are gone they've been for a while I'm still waiting for them to arrive I know you wanted this, I wanted it too We've tried everything and it still isn't working

It's time... It's time
It's time to say our last goodbye
