

# Temptation

VAST

I went in the desert  
I went searching for the truth  
I stumbled across you and  
I know you're not the truth

I went in the ocean  
I went looking for some love  
All I found is that I found  
I haven't found enough

I stand alone now  
I stand alone  
But can you save me from myself

You are my temptation  
You are my temptation  
To do what I knew is wrong

You are my temptation  
You are my temptation  
To do what I knew is wrong  
What I knew is wrong was you  
You

I stand alone now  
I stand alone  
Can you save me from myself  
Oh please

They've been killing children  
And nobody seems to care  
They've been laughing at my god  
My god I wouldn't dare

Oh you are my temptation  
You are my temptation  
You are my temptation

Oh you are my temptation  
You are my temptation  
You are my temptation
