

The Last One Alive

VAST

There's a place, not that far from here
Where people go, when their dreams have died
As I walk, from these faceless streets
I must be the last one alive
Where are you, you're not with me
Numb my mind with a fantasy
Watching people live and die on screen

Where are you, you're not with me
Where are you, I'm free

You left me high and dry it changed me
You lied to me now I am angry
And if the sun comes in your room
And awakens you from your vanity
You won't find me 'cause I'll be
On top a mountain pissing on your grave
Na,na,na...

There's a place from where I just arrived
And I escaped the one last one alive

Where are you
You're not with me
Where are you, I;m free

You left me high and dry it changed me
You lied to me now I am angry
And if the sun comes in your room
And awakens you from your vanity
You wont find me 'cause I'll be
On top a mountain pissing on your grave
